

Comments of the UPS Store #1439

If the USPS is allowed to do this program, it could affect our store in a substantially negative way. Most of our mailbox holder's come to our store because they have businesses that need to receive packages from such as UPS, FedEx, etc. If the USPS changes their mailboxes to a street address not only would our store lose business but all other UPS stores would too. In this economy individual business owners have it hard enough trying to get by, if the USPS is going to change their address to a physical address what happens to all the local businesses? What happens to the people just trying to make a living for themselves? Another downside to the Post Office changing their address is that they don't have 24 hour access for their customers like UPS Stores do. We can let our customers get their mail at any time during the day. There is no point for the post office to change their address for their p.o. boxes. All it is going to do is create more hardship for the local business owners across the whole country.

A handwritten signature in black ink, appearing to read "Theresa Gorman". The signature is fluid and cursive, with a large loop at the end.

Theresa Gorman
